Current location

Adding a blood request

It will create two types of requests

- 1. I need blood.
- 2. I would like to donate blood.

Create Request

I am Donating/Requesting

PICK YOUR OPTION

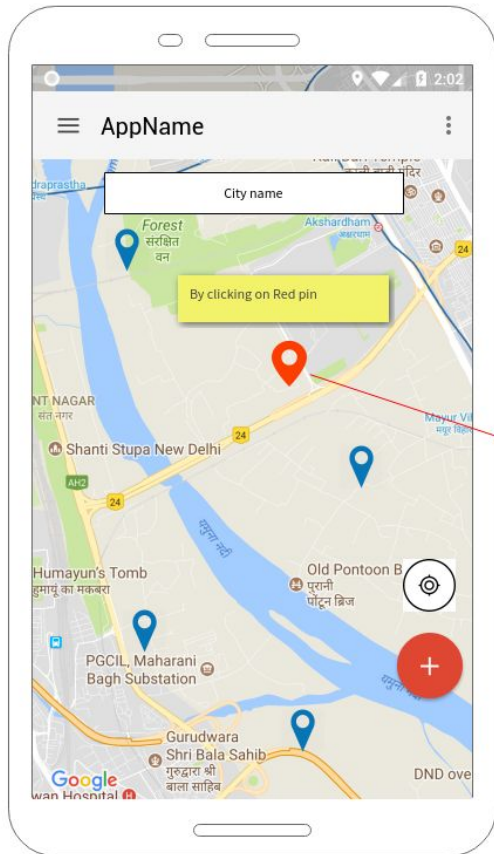

Blood Group

Select blood group

Purpose of your blood request

I want to donate

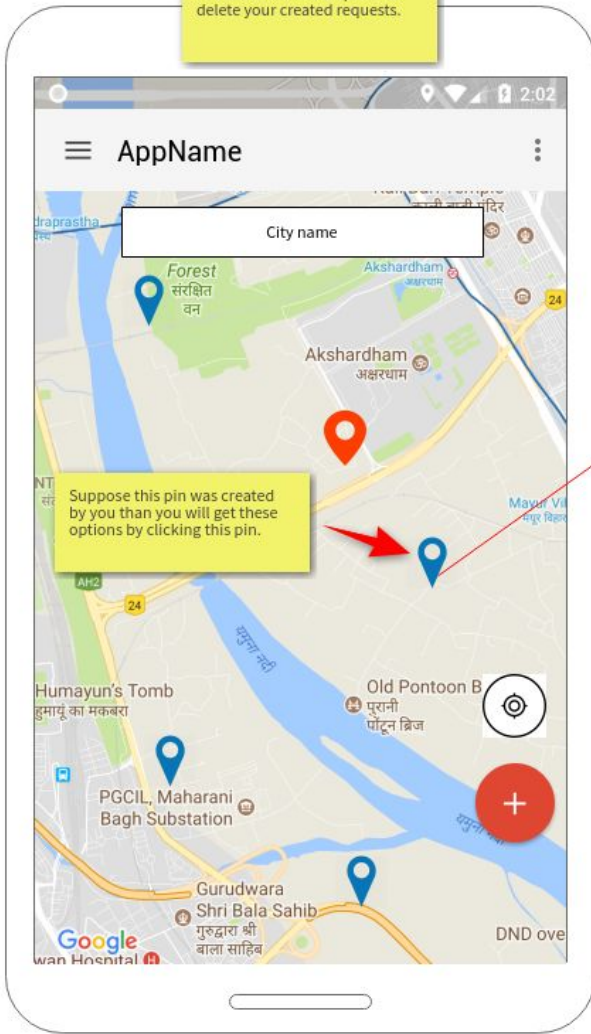

I need blood

A red card representing a receiver's profile. At the top is a circular placeholder for a "Profile pic". Below that, the text "Receiver" is displayed in white, followed by "Blood group (O+) - (Receiver need)". To the right of the card is a white box containing the ID "#F44336". At the bottom of the card is a white button labeled "I Need Blood". A yellow callout box points to this button with the text: "After clicking I need blood This button is being clicked by Donor and our app will send notification to receiver That XYZ has accepted your blood request. (With donor contact number) Meantime".

A white notification dialog box with a grey header that says "Notification has been sent to receiver". Below the header is a checkbox that is checked, followed by a text input field labeled "Contact receiver". At the bottom of the dialog are two green buttons: "Call" and "SMS".

And there is must a option to delete your created requests.

Suppose this pin was created by you than you will get these options by clicking this pin.
